## **Intent**

- 1. Initiate more extensive career exploration at the Middle School level**
- 2. Transition selected High School courses to Skill-Based instead of Test-Based curriculum**
- 3. Ensure students have the skill sets in math, science and language to be successful in a chosen career**
- 4. Established teamed recruiting of students with area businesses and technical colleges**
- 5. Recruit students, by name, into high demand skilled careers**
- 6. Establish pre-certification of selected career courses for high school instruction**
- 7. Coordinate student transition to selected technical college for post certification**
- 8. Ensure immediate employment upon graduation from technical college**
